International Recruitment Webinar Series: A Resounding Success!

We have just concluded a series of six International Recruitment webinars, delivered by JMW Solicitors.

Tailored for South-East care providers, the sessions delved into the nuances of sponsorship licenses, ethical recruitment, onboarding, and modern slavery, while introducing our £1,500 International Recruitment grant scheme.

The webinars, attended by 255 participants, consisted of two introductory overviews, two in-depth best practice sessions, and two sessions specifically addressing the challenges faced by home care providers.

Feedback highlighted a shift in attitude: more providers are now considering international recruitment, and many are keen to apply for grants.

Specific comments included:

"One of the best webinars I have attended."

"...we are more confident with our license registration now."

"I have also attended Home Office webinars and this one was far better!!"

In response to the unprecedented demand, we will be running further "Mastering international Recruitment" webinars later this month. Details will be made available on the SESCAs website and future bulletins.

FREE Legal Helpline now live!
